

Employment Readiness Program Website Registrations

The Employment Readiness Program (ERP) is here to provide you with the tools to successfully search for and obtain employment. In the fast paced and technology driven environment we now live in, *most employers are posting their job openings on line*. In order to save you time during your job search, we recommend that you register in the following three websites prior to visiting the ERP.

www.workintexas.com (Texas Workforce Website)

www.cpol.army.mil (Official Website of the United States Army Civilian Personnel)

www.usajobs.opm.gov (Official Website of the United States Federal Government)

Please bring your userids and passwords to the ERP on your next visit or appointment. Our staff members are familiar with the websites and will help you maximize your job search efforts.

You may still register in our office if you prefer and the above is only a recommendation to save you time.

Very respectfully,

Ted Rivera
