You will be amazed at how quickly children can absorb another language, and how rewarding it will be for them to share their knowledge with you in class. In a month's time, students will be able to describe themselves, their needs, and their environment, all in the target language. The bonding experience this class will afford you and your child can't be missed. Come join in the fun!

There is no better way to stimulate your child's mind than to introduce him/her to another language! By focusing on culture, including music, food, and games, children will learn to communicate naturally in Spanish. Once students have been introduced to Spanish, we will develop their communicative skills so they become life-long speakers. By watching commercials, listening to music, reading, looking at movies, and playing games, we will focus on Spanish communication and enhance students' speaking ability. Learning another language is interesting and fun, and has been shown to help students in all aspects of school. Parents are welcome to join their children in this class so that they can learn with you. Come build up your skill, and make great friends doing so!
